Sir:

Submitted herewith for consideration by the examiner is a copy of the document identified on the attached Form PTO-1449. The enclosed document, EP 1018857, is not prior art to this application, but is being submitted in an abundance of caution because any corresponding U.S. patent would qualify as prior art to this application under 35 U.S.C. §102(e), subject to being presumptively antedated.

A patent family search performed on August 8, 2003, did not reveal the existence of a U.S. patent or patent publication, but a corresponding U.S. application (U.S. Serial No. 09/509,121, filed March 23, 2000) may be pending.
